LEPER TO BE SENT BACK TO MICHIGAN

Wolverine Board of Health Wire Surgeon General Blue of Decision in Sam Izen Case.

The Michigan Stale Board of Health has stapped in and settled the argument between the health authorities of Bay City, Mich., and Burlalo, N. T., over a case of leprosy, the patient having escaped from Bay City heigh taken into custody at Burfalo, Dr. R. L. Diron, secretary of the Michigan Health Board, whire it o Surgeon General Blue, of the Public Health and Marine Hospital Service yesterday, saying that although the Bay City authorities were opposed to the return of Sah Ison, the State does not wish a controversy and is the Bay City authorities were object to the return of Sain Isen, the State does not wish a controversy and is willing to take any steps necessary for his return. The Buffalo authorities losts that Michigan should send a medical cofficer to Buffalo to occord Leen back to Bay City, paying all expenses. The Michigan State authorities think New Michigan State authorities think New Tork should pay the expenses of transportation, if they are a auxious to get the assume all obligations in order to assume all obligations in order to assume all obligations in order to settle the controversy. The Michigan authorities hold, however, that they are their the hold, however, that they are not legally bound to take this action, on the ground that less is a wanderer and has no official residence, having been in and away from Bay City several times during the last few years up to the time he returned to that place with a pronounced case of leproey.

Nothing further was seard yeared was concerning C. W. Carson, the leper who concerning C. W. Carson, the leper who consuled several works ago from the leper.

Nothing further was heard yesterday concerning C. W. Carson, the leper who escaped several weeks ago from the leper colony near Denver, Colo., or C. W. Bronson, who has turned up at San Francisco with leprosy. The authorities there believed that one man bears both names. The Federal health authorities will take York case, however, until they have an on action in this or the Michigan-New opinion from the legal authorities of the government as to whether they can assume control of the cases. This incident has led Surgeon General Blue to decide upon the desirability of Federal control of leproy in the United States proper, as in the island possessions, and he will promptly recommend the establishment of leper hospitals in different sections of the country for the treatment of palients sent in by the various States.
